

For one reason or another, spring time tends to be the time to get things ordered and organized whether it's cleaning up part of the house or picking up a part of the yard. From a fresh coat of paint to a fresh layer of mulch, it's amazing how little things can brighten up a space and make it look new and beautiful. In Paul's letter to Titus, he reminds the church in Crete that, because of the Gospel, they are new and beautiful and are called to make the Gospel look good and beautiful by how they order and organize their lives and relationships in every age and stage of life. Join us as we learn what it looks like to make grace look good and beautiful!
