

Nearly twenty years ago, a television show swept across America not only transforming homes but transforming lives as designers, carpenters, contractors, and landscapers teamed up to re-do and re-design homes from the inside out. They stripped houses down to their frame and foundation and, once it was complete, unveiled something that had been changed and transformed into something beautiful. In Titus 3, Paul reminds us that the grace of God penetrates and permeates to the core of who we are and changes and transforms both the inside and outside of our lives. Join us as we consider how, because of Jesus, grace changes everything!
